

How to Sync Copied SoftChalk Content

When instructors have **SoftChalk** modules in their course it is a good rule of thumb to **synchronize** the modules, especially if they have completed a course copy or just uploaded the **SoftChalk** modules.

1. Under **Control Panel** click on **SoftChalk – Synchronize Copied Content**
2. Press **Synchronize**. It will come up with a list of the modules, and check marks when completed.
