

Synchronize your copied SoftChalk Lessons

A Blackboard course containing SoftChalk Lessons will need to be synchronized after a course copy and/or after updating a lesson for students to be able to view the lesson without error.

1. Within the current Blackboard course, select **Course Tools** under Control Panel of Course Management Options.

2. Under Course Tools, select **SoftChalk – Synchronize Copied Content**

3. Within SoftChalk – Synchronize Copied Content, select **Synchronize**

SoftChalk - Synchronize Copied Content

This tool synchronizes SoftChalk content that was copied or exported from another course. For ScoreCenter lessons, gradebook columns will be created if they do not exist but score information will not be copied.

Status:
Ready to synchronize

4. After synchronization is complete, green check marks will be placed next to the SoftChalk lessons that are complete.

SoftChalk - Synchronize Copied Content

This tool synchronizes SoftChalk content that was copied or exported from another course.

Status:
All content synced

- ✓ Lesson: Module 4 (Synced)
