Create a PeerMark Assignment in Blackboard

- In a content area in Blackboard, select Assessment, then Turnitin Assignment

- On the Turnitin page that opens, select the assignment type: **PeerMark Assignment**. Click **Next Step**.

A screenshot of the Turnitin assignment creation page. At the top, there is a navigation bar with 'Messages', 'English', 'Roadmap', and 'Help'. Below this is the Turnitin logo. The main content area is titled 'About this page' and contains the text: 'This is the first step in creating an assignment. Use the radio buttons to select an assignment type. Please note a paper assignment must exist before any assignment type can be created.' Below this text is a section titled 'Select your assignment type' with three radio button options: 'Paper Assignment', 'PeerMark Assignment', and 'Revision Assignment'. The 'PeerMark Assignment' option is selected. To the right of the 'PeerMark Assignment' option, there is a light blue box containing the text: 'PeerMark Assignment', 'The PeerMark assignment type allows students to review their peers' papers based on scale and free response questions selected by the instructor.', and a link 'View a PeerMark demo'. At the bottom of the page, there is a 'Next Step' button.

Step 1: Assignment

The screenshot shows the Turnitin PeerMark Settings interface. At the top, the Turnitin logo is on the left, and navigation tabs for 'Libraries', 'Class Stats', and 'Preferences' are in the center. Below these is the 'PeerMark Settings' header, with 'Step 1 Assignment' highlighted and 'Step 2 Distribution' and 'Step 3 Questions' visible. The main content area includes a dropdown menu for selecting an assignment, a 'Point value' input field, and a checkbox for 'Award full points if review is written'. Below this is a section for 'Assignment Dates' with 'Reset to default dates' link. This section contains three rows for '*Start', '*Due', and '*Post', each with 'Click to set date' and 'Click to set time' buttons. At the bottom, there are 'Save & Continue' and 'Cancel' buttons.

or

Select the assignment which you will have students peer evaluate.

The Start, Due, and Post dates autofill to match the paper assignment settings. You can edit the dates and times here.

Step 2: Set Distribution Options

On this page, you will set the options for how papers are distributed for peer review.

Assignment Inbox Edit Assignment Libraries Class Stats Preferences

PeerMark Settings

Step 1 Assignment Step 2 Distribution Step 3 Questions

Distribution of Papers

Select the number of papers each student will review.
[Learn more about how papers are distributed](#)

Each student will review

Paper(s) automatically distributed by PeerMark 1
Paper(s) selected by the student 0
Require self-review NO

PeerMark defaults to each student reviewing 1 paper. You can set your own preferences using the Edit button.

Edit 1 total reviews

[Show more distribution options](#)

Save & Continue or [Return to previous step](#)

Use the Show more distribution options link if you want to control the distribution of papers.

Each student will review

Paper(s) automatically distributed by PeerMark
Paper(s) selected by the student
Require self-review

Save or [Cancel](#) 1 total reviews

These distribution options allow instructors to choose to exclude student papers from distribution or specify which student papers a student(s) will have to review.

[Pair Students](#) [Exclude Students](#)

Add rules to fine tune the distribution of papers. Get started by clicking the "Pair" or "Exclude" button.

Save & Continue or [Return to previous step](#)

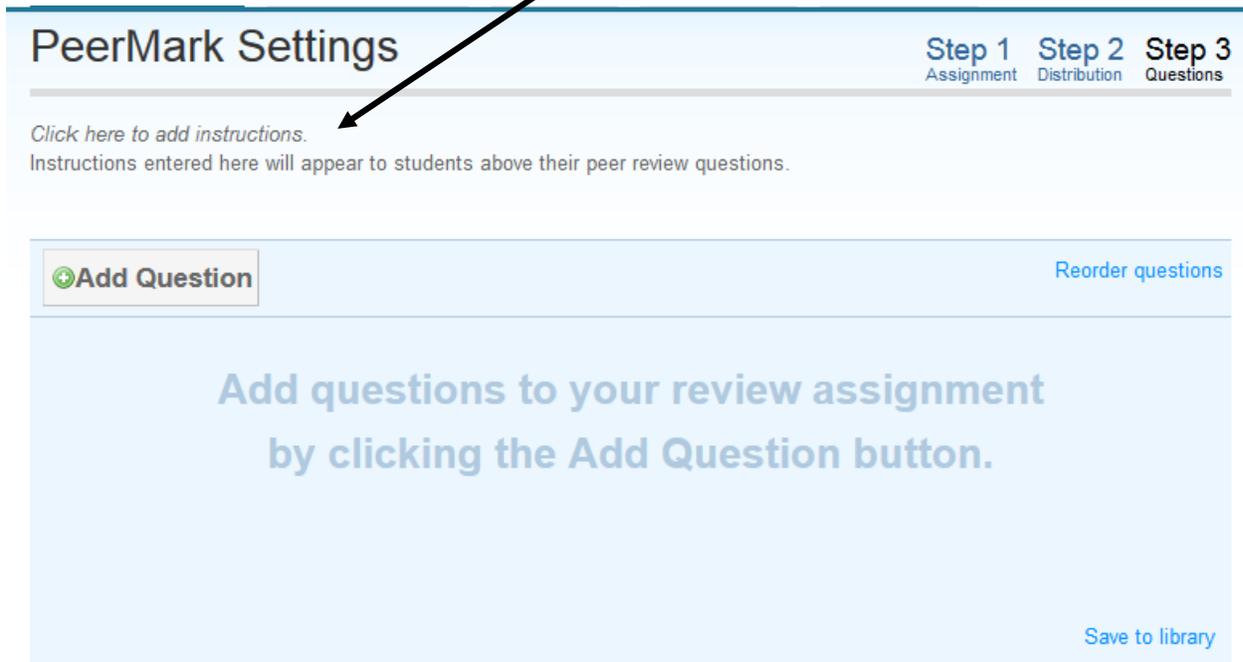

Student pairs or exclusions can be edited or deleted until a student has begun a review. At this point the assignment settings are locked. To edit a Student Pair or exclusion click on the edit button to the right of the student pair or exclusion you would like to edit.

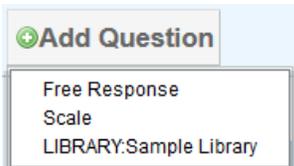

Step 3: Add Questions for Reviewers

On this page, you can add specific questions for students to answer as they review a paper. These can be scale response and free response questions.

Optionally, you can add instructions for students through the Click here to add instructions link.

[Save & Finish](#) or [Return to previous step](#)

Use the **Add Question** button to select the types of question to add. Create your own, or select from the Sample Library. Questions pulled from the Library can be edited.

Questions can be edited or reordered until a student has begun a peer review at which time the assignment settings are locked.

Note: Unless the option: “Allow students to view author and reviewer names” is selected on Step 1 page under Show More Options, students will not see the names of the paper or review authors.

The image shows a rectangular form with a black border. At the top left, the word "Post" is written in a dark font. Below it, there are two input fields: the first contains the placeholder text "mm/dd/yy" and the second contains "hh:mm am". The word "at" is positioned between these two fields. Below the input fields, the text "Show more options" is written in a blue, underlined font. This text is circled with a red oval.
